

# The Premier Americas Gold Producer

CORPORATE PRESENTATION  
October 15, 2021

TSX: **EQX**  
NYSE-A: **EQX**

[equinoxgold.com](http://equinoxgold.com)

# Cautionary Notes

**Forward-looking Statements.** This presentation contains certain forward-looking information and forward-looking statements within the meaning of applicable securities legislation and may include future-oriented financial information. These include statements regarding the strategic vision for Equinox Gold and expectations regarding exploration potential, production capabilities and future financial or operating performance; Equinox Gold's ability to successfully advance its growth and development projects, including the Greenstone and Santa Luz Projects and the expansions at Los Filos and Castle Mountain; the demand for gold investment; and expectations for the Company's investments in Solaris Resources, i-80 Gold and Pilar Gold. Forward-looking statements or information is generally identified by the use of the words "will", "advance", "plans", "anticipated", "expect", "estimated", "target", "upside", "grow", "generate", "extend", "increase", "strong", "potential" and similar expressions and phrases or statements that certain actions, events or results "may", "could", "should" or "will be", or the negative connotation of such terms, are intended to identify forward-looking statements and information. Although the Company believes that the expectations reflected in such forward-looking statements and information are reasonable, undue reliance should not be placed on forward-looking statements since the Company can give no assurance that such expectations will prove to be correct. The Company has based these forward-looking statements and information on the Company's current expectations and projections about future events and these assumptions include: the strengths, characteristics and potential of Equinox Gold following the acquisition of Premier Gold; Equinox Gold's ability to achieve its production, cost and development expectations for its respective operations and projects; prices for gold remaining as estimated; currency exchange rates remaining as estimated; the exercise of in-the-money convertible notes; construction and development at Santa Luz, Los Filos, Castle Mountain and Greenstone being completed and performed in accordance with current expectations; exploration programs achieving mine life extension and mineral reserve replacement; tonnage of ore to be mined and processed; ore grades and recoveries; prices for gold remaining as estimated; Mineral Reserve and Resource estimates and the assumptions on which they are based; prices for energy inputs, labour, materials, supplies and services; no labour-related disruptions and no unplanned delays or interruptions in scheduled development and production; that all necessary permits, licenses and regulatory approvals are received in a timely manner; and the Company's ability to comply with environmental, health and safety laws; the implications of the novel coronavirus (COVID-19) and any related restrictions, regulations and suspensions with respect to the Company's operations, including by blockade; the strategic vision for i-80 Gold; the ability of i-80 Gold to successfully advance its projects; the strategic vision for Solaris; the ability of Solaris to successfully advance its projects; the ability of Pilar Gold to successfully operate the Pilar mine and to meet its payment commitments to the Company; and the ability of Equinox Gold to work productively with its joint venture partner at Greenstone. While the Company considers these assumptions to be reasonable based on information currently available, they may prove to be incorrect. Accordingly, readers are cautioned not to put undue reliance on the forward-looking statements or information contained in this presentation. The Company cautions that forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements and information contained in this and the Company has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: fluctuations in gold prices; fluctuations in prices for energy inputs, labour, materials, supplies and services; fluctuations in currency markets; operational risks and hazards inherent with the business of mining (including environmental accidents and hazards, industrial accidents, equipment breakdown, unusual or unexpected geological or structural formations, cave-ins, flooding and severe weather); inadequate insurance, or inability to obtain insurance to cover these risks and hazards; employee relations; relationships with, and claims by, local communities and indigenous populations; the Company's ability to obtain all necessary permits, licenses and regulatory approvals in a timely manner or at all; changes in laws, regulations and government practices, including environmental, export and import laws and regulations; legal restrictions relating to mining including those imposed in connection with COVID-19; risks relating to expropriation; increased competition in the mining industry; the failure by Pilar Gold to meet one or more of its payment commitments to the Company and those factors identified in the Company's MD&A dated March 19, 2021 and its Annual Information Form dated March 24, 2021, both for the year ended December 31, 2020, and in the Company's Q2 2021 MD&A dated August 4, 2021, all of which are available on SEDAR at [www.sedar.com](http://www.sedar.com) and on EDGAR at [www.sec.gov/edgar](http://www.sec.gov/edgar).

Forward-looking statements and information are designed to help readers understand management's views as of that time with respect to future events and speak only as of the date they are made. Except as required by applicable law, the Company assumes no obligation to update or to publicly announce the results of any change to any forward-looking statement or information contained or incorporated by reference to reflect actual results, future events or developments, changes in assumptions or changes in other factors affecting the forward-looking statements and information. If the Company updates any one or more forward-looking statements, no inference should be drawn that the Company will make additional updates with respect to those or other forward-looking statements. All forward-looking statements and information in this presentation are qualified in their entirety by this cautionary statement.

**Non-IFRS Measures.** This document refers to mine cash costs/oz, all-in sustaining costs ("AISC")/oz, adjusted EBITDA, adjusted net income, adjusted earnings per share, net debt and sustaining and expansion capital expenditures that are measures with no standardized meaning under International Financial Reporting Standards ("IFRS") and may not be comparable to similar measures presented by other companies. Their measurement and presentation is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Non-IFRS measures are widely used in the mining industry as measurements of performance and the Company believes that they provide further transparency into costs associated with producing gold and will assist analysts, investors and other stakeholders of the Company in assessing its operating performance, its ability to generate free cash flow from current operations and its overall value. Refer to the "Non-IFRS measures" section of the Company's Management's Discussion and Analysis for the period ended December 31, 2020, for a more detailed discussion of these non-IFRS measures and their calculation. Combined AISC does not include corporate G&A.

**Cautionary Note to U.S. Investors Concerning Estimates of Reserves and Resources.** Information about mineral reserve and resource estimates in this presentation has not been prepared in accordance with the requirements of U.S. securities laws. The technical information in this presentation has been prepared in accordance with Canadian reporting standards and certain estimates are made in accordance with National Instrument 43-101 — Standards of Disclosure for Mineral Projects ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of technical information concerning mineral projects. Unless otherwise indicated, all mineral reserve and resource estimates contained in this presentation have been prepared in accordance with NI 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum Definition Standards on Mineral Resources and Reserves ("CIM Definition Standards"). Canadian standards, including NI 43-101, differ significantly from the historical requirements of the Securities and Exchange Commission (the "SEC"), and mineral reserve and resource estimates contained in this presentation, or incorporated by reference, may not be comparable to similar information disclosed by U.S. companies. The SEC has adopted amendments to its disclosure rules to modernize the mineral property disclosure requirements for issuers whose securities are registered with the SEC (the "SEC Modernization Rules"). The SEC Modernization Rules replace the historical property disclosure requirements for mining registrants that are included in SEC Industry Guide 7. U.S. companies must provide disclosure on mineral properties under the SEC Modernization Rules for fiscal years beginning January 1, 2021 or later. Under the SEC Modernization Rules, the definitions of "proven mineral reserves" and "probable mineral reserves" have been amended to be substantially similar to the corresponding CIM Definition Standards and the SEC has added definitions to recognize "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" which are also substantially similar to the corresponding CIM Definition Standards; however, there are still differences in the definitions and standards under the SEC Modernization Rules and the CIM Definition Standards. Therefore, the Company's mineral resources and reserves as determined in accordance with NI 43-101 may be significantly different than if they had been determined in accordance with the SEC Modernization Rules.

Numbers may not add due to rounding. **All dollar amounts in USD unless otherwise noted.**

# Operating Mines: USA

## Mesquite Mine, California

- 2021 guidance: 130,000-140,000 oz
- Exploration focused on mine life extension

## Castle Mountain, California

- 2021 guidance: 20,000-30,000 oz for Phase 1 operations
- Permitting Phase 2 expansion to +200,000 oz/year

# Operating Mines: Mexico

## Los Filos Mine, Guerrero

- 2021 guidance: 120,000-140,000 oz
- Mining new Guadalupe open-pit and Bermejil underground deposits

## Mercedes Mine, Sonora

- 2021 guidance: 30,000-35,000 oz<sup>1</sup>
- Potential to increase throughput and production

# Operating Mines: Brazil

## Aurizona Mine, Maranhão

- 2021 guidance: 130,000-140,000 oz
- Mine life extension and expansion potential from additional open-pit and underground deposits

## Fazenda Mine, Bahia

- 2021 guidance: 60,000-65,000 oz
- Exploration for mine life extension and resource growth, regional exploration underway in Fazenda-Santa Luz district

## RDM Mine, Minas Gerais

- 2021 guidance: 60,000-65,000 oz
- Significant operational improvements including connection to grid power, plant optimizations and major pit expansion

# Santa Luz Project: First Gold Pour on Track for Q1 2022

Ball mill, gravity circuit and lime silo – September 2021

## Construction on budget and on schedule

- Past producing mine: refurbishing existing infrastructure and retrofitting processing plant
- \$103 M initial capex
- \$21 M sustaining capex
- Average 110,500 oz/year gold production for first five years
- Average 95,000 oz/year over initial 9.5-year mine life
- \$877/oz average AISC
- Excellent exploration potential near-surface and at depth
- Mining commenced in June
- Construction >60% complete

# Greenstone Project: Early Works Activities Underway

Water effluent treatment plant and feed pond – September 2021

## Greenstone will be one of the largest gold mines in Canada<sup>1</sup>

- 5.5 Moz in reserves with significant exploration upside<sup>1</sup>
- More than 400,000 oz/year gold production for first five years
- More than 360,000 oz/year over initial 14-year mine life
- Excellent infrastructure located adjacent to Geraldton, Ontario on the Trans-Canada Hwy
- Community and Indigenous agreements in place
- Ontario government investing \$3.6M to train 150 Indigenous people to learn the skills to work at Greenstone
- Fully permitted for construction
- Early works activities well advanced in anticipation of construction decision in Q4 2021
  - Project team in place
  - Engineering well advanced
  - Road works, tree clearing and site prep well advanced
  - Temporary camp installed
  - Temporary water effluent treatment plant installed

# Expansion Projects: Additional ~300,000 oz/year

## Los Filos, Mexico

- Mining new open-pit and underground mines
- Finalizing study for new carbon-in-leach plant for high-grade ore
- Potential to increase production to ~350,000 oz per year<sup>1</sup>

## Aurizona, Brazil

- Mine life extended to 11 years by mining underground and satellite open-pit deposits concurrently with the existing open pit
- 1.5 Moz gold life-of-mine production, peak production 160,000 oz/year in Years 5-8

## Castle Mountain, California, USA

- Average 218,000 oz gold/year during Phase 2 operations
- 3.4 Moz gold produced over total 21-year mine life<sup>2</sup>
- Expect to start Phase 2 permitting in Q1 2022

# Committed to Responsible and Ethical Mining

*ESG data published quarterly at [www.EquinoxGold.com](http://www.EquinoxGold.com)*

## ENVIRONMENT

Achieved all 2020 environmental targets, no off-site environmental impacts

## COMMUNITIES

More than 40 communities directly benefit

## SAFETY

All 2020 safety targets met, 25% better than target for TRIFR<sup>1</sup>

## HEALTH

More than 18,000 COVID-19 tests performed, no production days lost due to COVID<sup>2</sup>

## ESG PLANNING

Over 500 hours for senior team dedicated to strategy and planning

## ENERGY & GHG

Conducted energy and GHG management workshop with sites and senior team

## LEADERSHIP

Adopted leading international standards and principles to drive improved performance

## COLLABORATION

Joined Mining Association of Canada, World Gold Council and Mining Safety Round Table

# Diversified Asset Portfolio Across Four Countries

## USA

4.6 Moz Reserves  
~170 Koz annual production  
>300 Koz with expansions<sup>1</sup>

## Canada

5.5 Moz Reserves (60% attributable to EQX)  
~240 Koz annual production<sup>1,2</sup>  
First production in 2024

## Mexico

4.8 Moz Reserves  
~220 Koz annual production  
>400 Koz with expansions<sup>1</sup>

## Brazil

3.6 Moz Reserves  
~250 Koz annual production  
>350 Koz with Santa Luz and expansions<sup>1</sup>

# Peer-leading Growth Profile

P/NAV<sup>1</sup> (x)

2024E Production<sup>1</sup> (Moz Au)

2021E - 2024E Prod. Growth<sup>1</sup> (%)

Total Reserves<sup>2</sup> (Moz Au)

# Sequential Development for Year-on-Year Production Growth

## The market rewards scale and diversification

- Less risk and broader investment appetite
- Overhead costs lower on a per ounce basis
- Reduced cost of capital
- More funds available for shareholder returns

## Peer-leading growth profile<sup>1</sup>

- Enhanced scale and diversity with Premier acquisition
- Year-on-year production growth
- Exploration for reserve growth, regional expansion
- Strong balance sheet to achieve growth objectives

# Funded to Execute on Growth

Strong balance  
sheet and cash  
flow funds  
growth

Cash <sup>1</sup>	Bank Debt <sup>3</sup>	Operating Cash Flow <sup>4</sup>
Unrestricted cash ~\$330 M	Term loan \$100 M drawn	FY 2020 operating cash flow \$217 M
Available liquidity ~\$530 M <sup>2</sup>	Corporate revolver \$200 M drawn \$200 M available	H1 2021 operating cash flow \$120 M

~\$530 M

Available liquidity<sup>2</sup>

~\$420 M

Market value of  
investments<sup>5</sup>

1. Cash on hand at June 30, 2021. 2. Cash on hand at June 30, 2021 + \$200 M undrawn revolver. 3. There is ~\$279M of convertible notes outstanding of which ~\$140M are in-the-money at June 30, 2021, treated as equity and excluded from debt figures. 4. Operating cash flow after changes in working capital. Full year (FY) 2020 includes partial year results from March 10, 2020 onward for Leagold assets acquired through merger. 5. Approximate market value at August 31, 2021 of Equinox Gold's 17% investment in Solaris Resources (TSX: SLS) plus warrants exercisable into Solaris shares, and 30% investment in i-80 Gold (TSX: IAU). See *Cautionary Notes*.

# Peer-leading Insider Ownership

Equinox Gold Shareholders<sup>1</sup>

Geographic Location

Insider Ownership<sup>2</sup>

Source: Company filings, FactSet, street research, Wood Mackenzie.

1. Mubadala Investment Company would hold ~12% if it fully converted both of its convertible notes. 2. Insider ownership considers only Executives and Directors who have personally invested to hold shares in the company and does not include corporate shareholders.

# 2021 Catalysts: Investing for Growth

More than 600 koz  
production growth  
from development  
projects takes  
annual production  
to more than  
1 Moz of gold

## Operations & Development

- Produce 560,000-625,000 oz of gold at \$1,300-\$1,375 per oz AISC
- ✓ Complete Castle Mountain expansion feasibility study
- ✓ Advance Los Filos expansion projects
- Complete Santa Luz construction
- Commence Greenstone construction
- ✓ Complete prefeasibility study for Aurizona underground mine

## Exploration

- ✓ Increase reserves and resources
- ✓ Extend mine life at Aurizona, Mesquite and Fazenda
- ✓ Test regional targets at Aurizona and in Fazenda-Santa Luz district

## Corporate

- ✓ Close Premier Gold acquisition, integrate assets and team
- ✓ Acquire additional 10% of Greenstone
- ✓ Optimize asset portfolio
- ✓ Support investment companies: Solaris Resources, i-80 Gold, Pilar Gold
- Opportunistic M&A

# Appendix

## ANALYST COVERAGE

BMO Capital Markets, Canaccord Genuity, CIBC World Markets, Cormark Securities, Desjardins, Haywood Securities, National Bank Financial, Scotiabank, Stifel GMP, RBC Capital Markets, TD Securities

1. Basic basis as at June 30, 2021.

2. Following the August 20, 2019 5:1 share consolidation, each EQX warrant and option exercises into 0.20 EQX shares and 0.05 Solaris Resources shares, and five warrants or options must be exercised to get one full EQX share. As a result, weighted average warrant and option exercise prices are shown at the price that would be paid to Equinox Gold to receive one full EQX share. Following the March 2020 merger with Leagold, each LMC warrant exercises into 0.331 EQX shares. Following the April 2021 acquisition of Premier Gold, each PG warrant exercises into 0.1967 EQX shares. Warrant and option numbers are shown as the number of common shares that would be issued upon exercise of the securities.

3. Restricted Share Units are shares committed to management and directors that are issued subject to time-based and performance-based vesting terms, as part of equity-based compensation.

4. Fully diluted shares outstanding includes the Mubadala and Pacific Road convertible notes, which are in the money. See footnote 7.

5. Average daily trading value since January 1, 2020.

6. Cash on hand at June 30, 2021. Net debt comprises \$200M from the senior revolving credit facility and \$100M from the senior amortizing credit facility, and includes equity settled notes.

7. Face value of the convertible notes held by Mubadala Investment Company and Pacific Road Resources Fund. Mubadala holds notes of \$130M and Pacific Road of \$9.7M, convertible at a fixed US\$ price of \$5.25 per share at the holders' option. Mubadala also holds a second \$130M note and Pacific Road holds \$9.3M convertible at a fixed US\$ price of \$7.80 per share at the holder's option. If both notes were fully converted, the Company would issue 44.5 M shares.

8. Calculated using the October 15, 2021 share price for EQX.

# Updated 2021 Guidance

**Guidance updated to reflect solid performance at Brazil sites and disruptions at Los Filos**

	Production (ounces)	Cash Costs <sup>1</sup> (\$/ounce)	AISC <sup>1,2</sup> (\$/ounce)	Sustaining Capital <sup>1</sup>	Non- sustaining Capital <sup>1</sup>

Scientific and technical information concerning the **Greenstone Project** is summarized, derived, or extracted from the "NI 43-101 Technical Report, Hardrock Project, Ontario, Canada" prepared by G. Mining Services Inc. for Premier Gold with an effective date of December 16, 2020. The Greenstone technical report is available on Equinox Gold's website and on SEDAR under Premier Gold's profile. Scientific and technical information concerning the **Mercedes Mine** is

summarized, derived, or extracted from the "NI 43-101 Technical Report Mercedes Gold-Silver Mine, Sonora State, Mexico" prepared by BBA Inc. with an effective date of December 31, 2020. The Mercedes technical report is available on Equinox Gold's website, on SEDAR and on EDGAR. Scientific and technical information concerning the **Hasaga Property** is summarized, derived, or extracted from the "National Instrument 43-101 Technical Report: Hasaga Project Red Lake Mining District, Ontario, Canada NTS MAP Sheets 52K/13 AND 52N/04" prepared by MRB & Associates for Premier Gold with an effective date of December 30, 2016. The Hasaga technical report is available on Equinox Gold's website and on SEDAR under Premier Gold's profile.

Readers are reminded that results outlined in the technical reports for some of these projects are preliminary in nature and may include Inferred Mineral Resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves.

There is no certainty that the mine plans and economic models contained in any of the reports will be realized. Readers are further cautioned that Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. Readers are also advised to refer to the latest annual information form and technical reports of the Companies as well as other continuous disclosure documents filed by the Companies, which are available on SEDAR, for detailed information (including qualifications, assumptions and notes set out accordingly) regarding the Mineral Reserve and Mineral Resource information contained in this document.

## Qualified Persons

Doug Reddy, MSc, P.Geo., Equinox Gold's COO, and Scott Heffernan, MSc, P.Geo, Equinox Gold's EVP Exploration, are the Qualified Persons under NI 43-101 for Equinox Gold and have reviewed and approved the technical information in this presentation.

Doug Reddy and Scott Heffernan have reviewed the technical reports for the Greenstone Project, the Mercedes Mine, and the Hasaga Property for Equinox Gold. To the best of Equinox Gold's knowledge, information and belief, there is no new material scientific or technical information that would make the disclosure of the mineral resource and mineral reserves or other technical information for the Greenstone Project, the Mercedes Mine or the Hasaga Property inaccurate or misleading.
