

## Kolwezi Copper Mine

Location	Kolwezi, DR Congo
Ownership	72%
Project status	In operation
Deposit Type	Sediment-hosted strata-bound copper-cobalt deposit
Reserves & resources	Contained copper of 1.08Mt with grade of 4.17% and cobalt of 130,000t with grade of 0.12%
Mining & Processing methods	Open-pit mining + hydrometallurgy
2021 Production	120,000 tonnes of mined copper and 1607 tonnes of cobalt

## Key Operating Indicators for 2021

**58.8**

Total assets/100 million yuan

**36.3**

Net assets/100 million yuan

**72.2**

Operating income/100 million yuan

**28.4**

Net profit/100 million yuan

### Project Overview

La Compagnie Minière de Musonoi Global Société par Actions Simplifiée (COMMUS) in DR Congo owns two mining rights, covering an area of 3,359 km<sup>2</sup>, including two sections in Kolwezi and Noyka.

COMMUS is a successful example that innovatively adopted Chinese construction practices in Africa. Phase I construction was completed in 2 years, 6 months ahead of schedule. And it took 9 months to complete Phase II, embodying the Zijin Speed of mine construction in Africa. The entire project has an annual production capacity of 100,000 tonnes of copper and 3,000 tonnes of cobalt.

COMMUS is one of the founding members of the China Alliance for Corporate Social Responsibility in Africa.
