

STATUS	ACTIVE SURFACE MINE
COAL QUALITY	LOW VOLATILE METALLURGICAL COAL
RESERVES	0.4MM TONS
2019 PRODUCTION	HIDE
COAL SEAM	UPPER KITTANNING AND LOWER FREEPORT
LOCATION	BERLIN, PA

OVERVIEW

OUR SCHROCK RUN AND SCHROCK RUN EXTENSION MINES ARE TWO SURFACE MINES LOCATED IN BERLIN, PA, EMPLOYING APPROXIMATELY 20 FULL-TIME WORKERS.

Starting late in the second quarter of 2019 these mines began operating at full run-rates. The Schrock Run Extension Mines are currently operating at full run-rate production levels and are expected to produce between 160,000 – 180,000 tons per year of low volatile metallurgical coal. We expect production from these surface mines to be low cost due to easier access to the surface coal seams.
