### 1 Organization and nature of operations

Colonial Coal International Corp. (the "Company") was incorporated pursuant to the Business Corporations Act of Alberta on August 1, 2007. The Company's corporate head office is located at Suite 200 – 595 Howe Street, Vancouver, British Columbia, Canada. The Company is listed for trading on the TSX Venture Exchange (the "Exchange") under the symbol "CAD".

The Company's principal activities include the acquisition, exploration and development of coal properties located in Canada. The Company is also pursuing the acquisition of Watson Island, located just outside of Prince Rupert, British Columbia, for the purpose of developing a seaport terminal and supporting industrial park.

### 2 Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended July 31, 2024, which have been prepared in accordance with IFRS.

The Company uses the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended July 31, 2024.

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income, and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended July 31, 2024.

These financial statements were approved by the board of directors for use on November 27, 2024

The Company operates in one segment – the acquisition, exploration and development of coal properties. As at October 31, 2024 and July 31, 2024, all of the Company's operations and assets were in Canada.

### 11 Management of Capital

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain a flexible capital structure which optimizes the costs of capital as an acceptable risk. In the management of capital, the Company includes the components of shareholders' equity, as well as cash.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust capital structure, the Company may attempt to issue new shares, issue debt, option its coal properties for cash and/or expenditure commitments from optionees, enter into joint venture arrangements, or dispose of coal properties or other assets.

The only sources of future funds presently available to the Company are the sale of additional equity capital, selling or leasing the Company's interest in a property or entering into joint venture arrangements or other strategic alliances in which the funding sources could become entitled to an interest in the properties or the projects. The Company's capital resources are largely determined by

Notes to the Condensed Interim Consolidated Statements For the three months ended October 31, 2024 (Unaudited – expressed in Canadian Dollars)

the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support of its projects.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

The Company is not subject to any capital requirements imposed by a regulator, other than continued listing requirements of the Exchange. In order for the Company to carry out planned exploration and development and pay for administrative costs, the Company will spend its working capital and intends to raise additional amounts externally as needed.

The Company's investment policy is to invest its cash and cash equivalents in interest-bearing bank accounts.

During the three months ended October 31, 2024, there were no changes to the Company's policies on managing capital.

#### 12 Financial Instruments

### a) Classification of financial instruments

The Company's financial instruments consist of cash and cash equivalents, short term investments, receivables, reclamation deposits, accounts payable and accrued liabilities, and due to/from related parties.

The Company's cash and cash equivalent, short term investments and receivables are measured at amortized cost. Accounts payable and accrued liabilities and due to/from related parties are measured at amortized cost.

### b) Fair value of financial instruments

The Company classifies fair values of financial instruments within a three-level hierarchy that prioritizes the inputs to fair value measurement and reflects the significance of the inputs used in making the fair value measurements. Fair values of assets and liabilities included in Level 1 are determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include valuations using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement. The Company has no financial instruments measured at fair value.

### c) Currency risk

As at October 31, 2024, all of the Company's cash and cash equivalents were held in Canadian dollars, the Company's functional currency. The Company has no operations in foreign jurisdictions outside of Canada and as such has no currency risk associated with its operations.

#### d) Credit risk

Credit risk arises from cash and cash equivalents, contractual cash flows of short term investments carried at amortized cost, as well as credit exposures to outstanding receivables from third parties and related parties.

Credit risk is monitored by management. All cash and cash equivalents are held with major Canadian financial institutions. The group's investments in short term investments are considered to be low risk investments. The Company manages credit risk by purchasing highly liquid, short-term investment-grade securities held at major financial institutions. The Company maintains substantially all of its cash with one major financial institution. The majority of cash held with these institutions exceed the amount of insurance provided on such deposits.

For outstanding receivables, the Company assesses the credit quality of the counterparty, taking into account its financial position, past experience and other factors. The compliance with credit limits by third parties and related parties is regulatory monitored by management.

The Company's concentration of credit risk arises from its cash and cash equivalents and short-term investments. The maximum exposure as at October 31, 2024 was \$6,723,829 (July 31, 2024 - \$6,390,337).

#### e) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company manages its cash according to its operational needs and to optimize revenues from interest.

### f) Liquidity risk

The Company manages liquidity risk by maintaining sufficient cash balances to enable settlement of transactions on the due date.
